

HINTS FOR THE HOUSEHOLD.

The Table.

—To prevent milk from rapidly souring, put in a very small portion of bicarbonate of soda.

—Breakfast Corn Bread: Scald the meal at night, and when cool, add a spoonful of yeast, two of shortening, the same of molasses, a little salt, stir well, and in the morning pour on a buttered tin, and bake.

—Brown Bread: Take one quart of corn meal, pour on boiling water or milk; when cool add a cup of yeast, two spoonfuls of molasses, a little salt and one quart of rye flour, wet with milk, and stir with a spoon. Pour in tins or pans to rise. Bake slow.

—RAISED BISCUIT.—Take some light bread-dough sufficient for two square tins of biscuit, mold in four ounces of butter, and let it rise again, and when light pick up small bunches of dough and drop on buttered tins. Let rise a few minutes, then bake slowly.

—Tomato Pickles: Take one peck of tomatoes, gathered green, and one-third as many peppers, soak them in cold water twenty-four hours; cold, sharp vinegar enough to cover, with an ounce of bruised cloves to a gallon of vinegar. Tomatoes pickled in this way will keep one year.

—Fried Cucumbers: Pare, cut into lengthwise slices more than a quarter of an inch thick, and lay for half an hour in ice water; wipe each piece dry; sprinkle with pepper and salt, and dredge with flour; fry to a light brown in good dripping or butter; drain well and serve hot.

—Light, Flaky Biscuit: One quart flour, half teacup butter, three even teaspoons of baking-powder rubbed in the flour first, then rub the butter in with a pinch of salt, stir up thick enough with sweet milk to mold into round balls with your hands; be careful and not get them too stiff; place them in pans so that they do not touch, and bake in a quick oven.

—Peach Fritters: Sift a quart of flour into a large bowl, stir in sufficient warm milk with one-third of a teacup of home-made yeast to make a stiff dough, and let it stand until light; then work in three beaten eggs, two tablespoonfuls of melted butter, two of sugar and a sprinkle of salt; knead, adding a little flour, for ten or fifteen minutes. Prepare some peaches by paring, halving, removing the stones and pressing the pieces together again. Take pieces of dough as large as an egg, flatten with the rolling-pin, put a peach into each piece, pressing the dough over, making round balls. Put to rise on a floured pan, not allowing them to touch each other. They should be light in from one hour to one and a half. Fry as you would raised doughnuts, and serve with liquid sauce.

Miscellaneous.

—When there is danger of staining the hands from preparing fruit and vegetables, rub them with fresh lard.

—To Cure Warts: Bathe two or three times a day in strong saleratus water, heating it in by the fire. I cured forty on my own hands when a child with this remedy. Nitric acid, applied with a sharp stick or some small article, is a sure cure, but makes them feel a little sore.

—Make of medium thick muslin (shirting) a small bag (about three inches by six), and fill it with the best starch you can buy. Close the bag, pulverize the starch and use it as a powder bag. You will find it one of the best of powders. It will not injure the skin. On the contrary, it will improve it.

—Scouring Balls to Remove Grease from Cloth: Soft soap and fuller's earth, of each half a pound; beat them well together in a mortar, and form into cakes. The spot, first moistened with water, is rubbed with a cake, and allowed to dry, when it is well rubbed with a little warm water, and afterwards rinsed or rubbed off clean.

—Tooth Powder: Charcoal two ounces, Peruvian bark one ounce, powdered orris root one-half ounce, one-half ounce prepared chalk, oil of lavender or bergamot twenty drops; work in a mortar until thoroughly incorporated; this is preferable to other tooth powders, because it gives an odorous breath, cleans and purifies the gums and preserves the enamel.

THE reason why medical practitioners do not hesitate to prescribe Dr. F. Willhoff's Anti-Periodic or Fever and Ague Tonic is as follows: Messrs. Wheelock, Finlay & Co., of New Orleans, its proprietors, have published its composition, and physicians have approved it because it contains no dangerous drug, and because it invariably proves successful. It is for sale by all Druggists.
